### PRIVATE MEMBERS' MOTIONS

3. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail businesses in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986.
4. *Mr Gordon*—Resolution—That in the opinion of this House, recognizing:
  - That Northerners must contend with a higher cost of living because of the sparse population, long distances between cities, and a harsh climate,
  - That operating a car is a practical necessity in the North,
  - That the North is being economically discriminated against when gasoline prices are allowed to be 16 cents per gallon higher in Northern Ontario than in the South,
  - That Northerners pay \$71 million more every year for gasoline because of these higher prices,
  - That higher gasoline prices serve as a deterrent to northern economic development,
  - That high gasoline prices deter potential vacationers,
  - That higher gasoline prices are socially regressive given that incomes in the North are lower than those in the South,
  - That a cut in the price of gasoline would put money back into the pockets of ordinary Northerners, workers, pensioners, and those on fixed incomes who can better spend this money on the necessities of life,
  - That higher gasoline prices cost Northerners money and jobs.

Therefore the Government of Ontario is called upon to act immediately to fulfil its promise of two years ago to equalize gasoline prices between Northern and Southern Ontario and put into practice the principle established in the Throne Speech that the best solutions are home-grown solutions.

5. *Mr Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by; (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called “Federated State of Northern Cyprus”; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.
6. *Mr Wildman*—Resolution—That in the opinion of this House the Canada Post Corporation’s plans to close, amalgamate or franchise many rural post offices and to eliminate or tender rural route services in order to reduce its operating deficit, would reduce essential mail services from many rural Ontario communities causing severe hardship and inconvenience to rural Ontarians, particularly the elderly and disabled; and the provincial government should urge the Government of Canada to halt immediately these plans to cut service and to maintain and improve rural postal services across Ontario.
10. *Mr Sheppard*—Resolution—That, in the opinion of this House, recognizing that the maintenance and construction of a good road system is vital to the local, regional and provincial economy and recognizing the increasing gap between road subsidy and the expenditures required to maintain the existing level of service for roads, the Government of Ontario should increase the municipal subsidies available to municipalities for road purposes.
12. *Mr Shymko*—Resolution—That, in the opinion of this House, the Government of Ontario should grant permission for the erection of a statue honouring the world-famous Italian explorer Giovanni Caboto (John Cabot) at an appropriate site on the grounds of the Main Legislative Building of the Parliament of Ontario in recognition of his landing on the Atlantic shore of Canada in 1497, as well as honouring and recognizing the Italian Canadian community’s immeasurable contribution to the development, growth and prosperity of Ontario and of Canada, and that appropriate funding be provided by the Government of Ontario jointly with other levels of government to a community based body that may wish to initiate and carry out this

project under the auspices of and/or with the cooperation of the National Congress of Italian Canadians as well as under the patronage of the Governor-General of Canada, the Lieutenant-Governor of Ontario, the Prime Minister of Canada and the Premier of Ontario and other prominent citizens, and that the statue be officially unveiled on June 24th, 1997, ten years hence, as part of the celebration of the 500th Anniversary of this historic event.

13. *Mr Wildman*—Resolution—That, in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.
  14. *Mr Guindon*—Resolution—That, in the opinion of this House, the Ministry of Tourism and Recreation should move immediately to implement a computerized tourist reservation system for Eastern Ontario similar to the system currently in use in the province of Nova Scotia.
  15. *Mr Treleaven*—Motion under Standing Order No. 36 (a)—That this House discuss Sessional Paper No. 106, Tabled May 27, 1987, namely a Petition relating to live dancing entertainment in hotels and other licensed establishments.
  16. *Mr McNeil*—Resolution—That, in the opinion of this House, the Government should bring forward Legislation dealing with the purchase or leasing of farm property. Specifically this Legislation should make it mandatory that any person or persons purchasing or leasing property in a bona fide agricultural area be informed of the conditions associated with farming and not in a position to harass or close down a bona fide farming operation.
  17. *Mr Gillies*—Resolution—That, in the opinion of this House, the government's MISA program, which only covers companies dumping industrial effluent directly into the province's waterways, should be extended to now include the additional 97.5% of water polluters in this province that are dumping into the province's municipal sewer systems.

## NOTICES

### GOVERNMENT MOTIONS

4. *Mr Nixon*—Resolution—That the Provisional Standing Orders be extended to remain in effect until 12.00 midnight on Thursday, December 31, 1987.
6. *Debated May 20, 21, 25, 27, June 3 and 4, 1987.*
9. *Debated May 26, 1987.*
10. *Mr Nixon*—Resolution—That the Treasurer of Ontario be authorized to pay the salaries of the civil servants and other necessary payments pending the voting of Supply for the period commencing July 1, 1987, and ending October 31, 1987, such payments to be charged to the proper appropriation following the voting of Supply.

---

### PRIVATE MEMBERS' MOTIONS

3. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail businesses in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986.
4. *Mr Gordon*—Resolution—That in the opinion of this House, recognizing:
  - That Northerners must contend with a higher cost of living because of the sparse population, long distances between cities, and a harsh climate,
  - That operating a car is a practical necessity in the North,
  - That the North is being economically discriminated against when gasoline prices are allowed to be 16 cents per gallon higher in Northern Ontario than in the South,
  - That Northerners pay \$71 million more every year for gasoline because of these higher prices,
  - That higher gasoline prices serve as a deterrent to northern economic development,
  - That high gasoline prices deter potential vacationers,
  - That higher gasoline prices are socially regressive given that incomes in the North are lower than those in the South,

- That a cut in the price of gasoline would put money back into the pockets of ordinary Northerners, workers, pensioners, and those on fixed incomes who can better spend this money on the necessities of life,
- That higher gasoline prices cost Northerners money and jobs.

Therefore the Government of Ontario is called upon to act immediately to fulfil its promise of two years ago to equalize gasoline prices between Northern and Southern Ontario and put into practice the principle established in the Throne Speech that the best solutions are home-grown solutions.

5. *Mr Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by; (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called “Federated State of Northern Cyprus”; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.
6. *Mr Wildman*—Resolution—That in the opinion of this House the Canada Post Corporation’s plans to close, amalgamate or franchise many rural post offices and to eliminate or tender rural route services in order to reduce its operating deficit, would reduce essential mail services from many rural Ontario communities causing severe hardship and inconvenience to rural Ontarians, particularly the elderly and disabled; and the provincial government should urge the Government of Canada to halt immediately these plans to cut service and to maintain and improve rural postal services across Ontario.
10. *Debated June 4, 1987.*
12. *Mr Shymko*—Resolution—That, in the opinion of this House, the Government of Ontario should grant permission for the erection of a statue honouring the world-famous Italian explorer Giovanni Caboto (John Cabot) at an appropriate site on the grounds of the Main Legislative Building of the Parliament of Ontario in recognition of his landing on the Atlantic shore of Canada in 1497, as well as honouring and recognizing the Italian Canadian community’s immeasurable contribution to the development, growth and prosperity of Ontario and of Canada, and that appropriate funding be provided by the Government of Ontario jointly with other levels of government

to a community based body that may wish to initiate and carry out this project under the auspices of and/or with the cooperation of the National Congress of Italian Canadians as well as under the patronage of the Governor-General of Canada, the Lieutenant-Governor of Ontario, the Prime Minister of Canada and the Premier of Ontario and other prominent citizens, and that the statue be officially unveiled on June 24th, 1997, ten years hence, as part of the celebration of the 500th Anniversary of this historic event.

13. *Mr Wildman*—Resolution—That, in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.
14. *Debated June 4, 1987.*
15. *Mr Treleaven*—Motion under Standing Order No. 36 (a)—That this House discuss Sessional Paper No. 106, Tabled May 27, 1987, namely a Petition relating to live dancing entertainment in hotels and other licensed establishments.
16. *Mr McNeil*—Resolution—That, in the opinion of this House, the Government should bring forward Legislation dealing with the purchase or leasing of farm property. Specifically this Legislation should make it mandatory that any person or persons purchasing or leasing property in a bona fide agricultural area be informed of the conditions associated with farming and not in a position to harass or close down a bona fide farming operation.
17. *Mr Gillies*—Resolution—That, in the opinion of this House, the government's MISA program, which only covers companies dumping industrial effluent directly into the province's waterways, should be extended to now include the additional 97.5% of water polluters in this province that are dumping into the province's municipal sewer systems.
18. *Mr McGuigan*—Resolution—That, in the opinion of this House, the Social Development Committee should be asked to review the current state of regulations relating to required and recommended vaccinations of children in the Province of Ontario. In particular, the Social Development Committee should be asked that the following regulations, in conjunction with vaccine-injuries in Ontario, be recommended:
  - an effective means of information about the benefits and risks of immunization and about known contra-indications;
  - an effective method of parental instruction about how to deal with reactions, should they occur;
  - an effective reporting system of adverse reactions in order to reduce the likelihood that children will receive contra-indicated inoculations; and

- a general assurance that recipients of government sponsored immunizations, who experienced a serious adverse reaction, will be provided with compensation without the need to establish liability based on the elusive tort theory.

## NOTICES

### GOVERNMENT MOTIONS

4. *Mr Nixon*—Resolution—That the Provisional Standing Orders be extended to remain in effect until 12.00 midnight on Thursday, December 31, 1987.
6. *Debated May 20, 21, 25, 27, June 3 and 4, 1987.*
9. *Debated May 26, 1987.*
10. *Mr Nixon*—Resolution—That the Treasurer of Ontario be authorized to pay the salaries of the civil servants and other necessary payments pending the voting of Supply for the period commencing July 1, 1987, and ending October 31, 1987, such payments to be charged to the proper appropriation following the voting of Supply.

---

### PRIVATE MEMBERS' MOTIONS

3. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail businesses in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986.
4. *Mr Gordon*—Resolution—That in the opinion of this House, recognizing:
  - That Northerners must contend with a higher cost of living because of the sparse population, long distances between cities, and a harsh climate,
  - That operating a car is a practical necessity in the North,
  - That the North is being economically discriminated against when gasoline prices are allowed to be 16 cents per gallon higher in Northern Ontario than in the South,
  - That Northerners pay \$71 million more every year for gasoline because of these higher prices,
  - That higher gasoline prices serve as a deterrent to northern economic development,
  - That high gasoline prices deter potential vacationers,
  - That higher gasoline prices are socially regressive given that incomes in the North are lower than those in the South,

- That a cut in the price of gasoline would put money back into the pockets of ordinary Northerners, workers, pensioners, and those on fixed incomes who can better spend this money on the necessities of life,
- That higher gasoline prices cost Northerners money and jobs.

Therefore the Government of Ontario is called upon to act immediately to fulfil its promise of two years ago to equalize gasoline prices between Northern and Southern Ontario and put into practice the principle established in the Throne Speech that the best solutions are home-grown solutions.

5. *Mr Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by; (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called “Federated State of Northern Cyprus”; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.
6. *Mr Wildman*—Resolution—That in the opinion of this House the Canada Post Corporation’s plans to close, amalgamate or franchise many rural post offices and to eliminate or tender rural route services in order to reduce its operating deficit, would reduce essential mail services from many rural Ontario communities causing severe hardship and inconvenience to rural Ontarians, particularly the elderly and disabled; and the provincial government should urge the Government of Canada to halt immediately these plans to cut service and to maintain and improve rural postal services across Ontario.
12. *Mr Shymko*—Resolution—That, in the opinion of this House, the Government of Ontario should grant permission for the erection of a statue honouring the world-famous Italian explorer Giovanni Caboto (John Cabot) at an appropriate site on the grounds of the Main Legislative Building of the Parliament of Ontario in recognition of his landing on the Atlantic shore of Canada in 1497, as well as honouring and recognizing the Italian Canadian community’s immeasurable contribution to the development, growth and prosperity of Ontario and of Canada, and that appropriate funding be provided by the Government of Ontario jointly with other levels of government to a community based body that may wish to initiate and carry out this project under the auspices of and/or with the cooperation of the National

Congress of Italian Canadians as well as under the patronage of the Governor-General of Canada, the Lieutenant-Governor of Ontario, the Prime Minister of Canada and the Premier of Ontario and other prominent citizens, and that the statue be officially unveiled on June 24th, 1997, ten years hence, as part of the celebration of the 500th Anniversary of this historic event.

13. *Mr Wildman*—Resolution—That, in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.
15. *Mr Treleven*—Motion under Standing Order No. 36 (a)—That this House discuss Sessional Paper No. 106, Tabled May 27, 1987, namely a Petition relating to live dancing entertainment in hotels and other licensed establishments.
16. *Mr McNeil*—Resolution—That, in the opinion of this House, the Government should bring forward Legislation dealing with the purchase or leasing of farm property. Specifically this Legislation should make it mandatory that any person or persons purchasing or leasing property in a bona fide agricultural area be informed of the conditions associated with farming and not in a position to harass or close down a bona fide farming operation.
17. *Mr Gillies*—Resolution—That, in the opinion of this House, the government's MISA program, which only covers companies dumping industrial effluent directly into the province's waterways, should be extended to now include the additional 97.5% of water polluters in this province that are dumping into the province's municipal sewer systems.
18. *Mr McGuigan*—Resolution—That, in the opinion of this House, the Social Development Committee should be asked to review the current state of regulations relating to required and recommended vaccinations of children in the Province of Ontario. In particular, the Social Development Committee should be asked that the following regulations, in conjunction with vaccine-injuries in Ontario, be recommended:
  - an effective means of information about the benefits and risks of immunization and about known contra-indications;
  - an effective method of parental instruction about how to deal with reactions, should they occur;
  - an effective reporting system of adverse reactions in order to reduce the likelihood that children will receive contra-indicated inoculations; and
  - a general assurance that recipients of government sponsored immunizations, who experienced a serious adverse reaction, will be provided with

compensation without the need to establish liability based on the elusive tort theory.

19. *Mr Bernier*—Resolution—That, in the opinion of this House, recognizing the importance that cottage lots play on the economic development of Northern Ontario and the social development of all Ontarians, the Government of Ontario should provide crown land in the north for the purpose of cottage lot development by Ontario residents.

## NOTICES

### GOVERNMENT MOTIONS

4. *Mr Nixon*—Resolution—That the Provisional Standing Orders be extended to remain in effect until 12.00 midnight on Thursday, December 31, 1987.
6. *Debated May 20, 21, 25, 27, June 3 and 4, 1987.*
9. *Debated May 26, 1987.*
10. *Mr Nixon*—Resolution—That the Treasurer of Ontario be authorized to pay the salaries of the civil servants and other necessary payments pending the voting of Supply for the period commencing July 1, 1987, and ending October 31, 1987, such payments to be charged to the proper appropriation following the voting of Supply.

### PRIVATE MEMBERS' MOTIONS

3. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail businesses in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986.
4. *Mr Gordon*—Resolution—That in the opinion of this House, recognizing:
  - That Northerners must contend with a higher cost of living because of the sparse population, long distances between cities, and a harsh climate,
  - That operating a car is a practical necessity in the North,
  - That the North is being economically discriminated against when gasoline prices are allowed to be 16 cents per gallon higher in Northern Ontario than in the South,
  - That Northerners pay \$71 million more every year for gasoline because of these higher prices,
  - That higher gasoline prices serve as a deterrent to northern economic development,
  - That high gasoline prices deter potential vacationers,
  - That higher gasoline prices are socially regressive given that incomes in the North are lower than those in the South,

- That a cut in the price of gasoline would put money back into the pockets of ordinary Northerners, workers, pensioners, and those on fixed incomes who can better spend this money on the necessities of life,
- That higher gasoline prices cost Northerners money and jobs.

Therefore the Government of Ontario is called upon to act immediately to fulfil its promise of two years ago to equalize gasoline prices between Northern and Southern Ontario and put into practice the principle established in the Throne Speech that the best solutions are home-grown solutions.

5. *Mr Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by; (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called “Federated State of Northern Cyprus”; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.
6. *Mr Wildman*—Resolution—That in the opinion of this House the Canada Post Corporation’s plans to close, amalgamate or franchise many rural post offices and to eliminate or tender rural route services in order to reduce its operating deficit, would reduce essential mail services from many rural Ontario communities causing severe hardship and inconvenience to rural Ontarians, particularly the elderly and disabled; and the provincial government should urge the Government of Canada to halt immediately these plans to cut service and to maintain and improve rural postal services across Ontario.
12. *Mr Shymko*—Resolution—That, in the opinion of this House, the Government of Ontario should grant permission for the erection of a statue honouring the world-famous Italian explorer Giovanni Caboto (John Cabot) at an appropriate site on the grounds of the Main Legislative Building of the Parliament of Ontario in recognition of his landing on the Atlantic shore of Canada in 1497, as well as honouring and recognizing the Italian Canadian community’s immeasurable contribution to the development, growth and prosperity of Ontario and of Canada, and that appropriate funding be provided by the Government of Ontario jointly with other levels of government to a community based body that may wish to initiate and carry out this project under the auspices of and/or with the cooperation of the National

Congress of Italian Canadians as well as under the patronage of the Governor-General of Canada, the Lieutenant-Governor of Ontario, the Prime Minister of Canada and the Premier of Ontario and other prominent citizens, and that the statue be officially unveiled on June 24th, 1997, ten years hence, as part of the celebration of the 500th Anniversary of this historic event.

13. *Mr Wildman*—Resolution—That, in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.
15. *Mr Treleaven*—Motion under Standing Order No. 36 (a)—That this House discuss Sessional Paper No. 106, Tabled May 27, 1987, namely a Petition relating to live dancing entertainment in hotels and other licensed establishments.
16. *Mr McNeil*—Resolution—That, in the opinion of this House, the Government should bring forward Legislation dealing with the purchase or leasing of farm property. Specifically this Legislation should make it mandatory that any person or persons purchasing or leasing property in a bona fide agricultural area be informed of the conditions associated with farming and not in a position to harass or close down a bona fide farming operation.
17. *Mr Gillies*—Resolution—That, in the opinion of this House, the government's MISA program, which only covers companies dumping industrial effluent directly into the province's waterways, should be extended to now include the additional 97.5% of water polluters in this province that are dumping into the province's municipal sewer systems.
18. *Mr McGuigan*—Resolution—That, in the opinion of this House, the Social Development Committee should be asked to review the current state of regulations relating to required and recommended vaccinations of children in the Province of Ontario. In particular, the Social Development Committee should be asked that the following regulations, in conjunction with vaccine-injuries in Ontario, be recommended:
  - an effective means of information about the benefits and risks of immunization and about known contra-indications;
  - an effective method of parental instruction about how to deal with reactions, should they occur;
  - an effective reporting system of adverse reactions in order to reduce the likelihood that children will receive contra-indicated inoculations; and
  - a general assurance that recipients of government sponsored immunizations, who experienced a serious adverse reaction, will be provided with

compensation without the need to establish liability based on the elusive tort theory.

19. *Mr Bernier*—Resolution—That, in the opinion of this House, recognizing the importance that cottage lots play on the economic development of Northern Ontario and the social development of all Ontarians, the Government of Ontario should provide crown land in the north for the purpose of cottage lot development by Ontario residents.

## NOTICES

### GOVERNMENT MOTIONS

4. *Mr Nixon*—Resolution—That the Provisional Standing Orders be extended to remain in effect until 12.00 midnight on Thursday, December 31, 1987.
6. *Debated May 20, 21, 25, 27, June 3 and 4, 1987.*
9. *Debated May 26, 1987.*
10. *Mr Nixon*—Resolution—That the Treasurer of Ontario be authorized to pay the salaries of the civil servants and other necessary payments pending the voting of Supply for the period commencing July 1, 1987, and ending October 31, 1987, such payments to be charged to the proper appropriation following the voting of Supply.

---

### PRIVATE MEMBERS' MOTIONS

3. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail businesses in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986.
4. *Mr Gordon*—Resolution—That in the opinion of this House, recognizing:
  - That Northerners must contend with a higher cost of living because of the sparse population, long distances between cities, and a harsh climate,
  - That operating a car is a practical necessity in the North,
  - That the North is being economically discriminated against when gasoline prices are allowed to be 16 cents per gallon higher in Northern Ontario than in the South,
  - That Northerners pay \$71 million more every year for gasoline because of these higher prices,
  - That higher gasoline prices serve as a deterrent to northern economic development,
  - That high gasoline prices deter potential vacationers,
  - That higher gasoline prices are socially regressive given that incomes in the North are lower than those in the South,

- That a cut in the price of gasoline would put money back into the pockets of ordinary Northerners, workers, pensioners, and those on fixed incomes who can better spend this money on the necessities of life,
- That higher gasoline prices cost Northerners money and jobs.

Therefore the Government of Ontario is called upon to act immediately to fulfil its promise of two years ago to equalize gasoline prices between Northern and Southern Ontario and put into practice the principle established in the Throne Speech that the best solutions are home-grown solutions.

5. *Mr Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by; (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called “Federated State of Northern Cyprus”; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.
6. *Mr Wildman*—Resolution—That in the opinion of this House the Canada Post Corporation’s plans to close, amalgamate or franchise many rural post offices and to eliminate or tender rural route services in order to reduce its operating deficit, would reduce essential mail services from many rural Ontario communities causing severe hardship and inconvenience to rural Ontarians, particularly the elderly and disabled; and the provincial government should urge the Government of Canada to halt immediately these plans to cut service and to maintain and improve rural postal services across Ontario.
12. *Mr Shymko*—Resolution—That, in the opinion of this House, the Government of Ontario should grant permission for the erection of a statue honouring the world-famous Italian explorer Giovanni Caboto (John Cabot) at an appropriate site on the grounds of the Main Legislative Building of the Parliament of Ontario in recognition of his landing on the Atlantic shore of Canada in 1497, as well as honouring and recognizing the Italian Canadian community’s immeasurable contribution to the development, growth and prosperity of Ontario and of Canada, and that appropriate funding be provided by the Government of Ontario jointly with other levels of government to a community based body that may wish to initiate and carry out this project under the auspices of and/or with the cooperation of the National

Congress of Italian Canadians as well as under the patronage of the Governor-General of Canada, the Lieutenant-Governor of Ontario, the Prime Minister of Canada and the Premier of Ontario and other prominent citizens, and that the statue be officially unveiled on June 24th, 1997, ten years hence, as part of the celebration of the 500th Anniversary of this historic event.

13. *Mr Wildman*—Resolution—That, in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.
15. *Mr Treleaven*—Motion under Standing Order No. 36 (a)—That this House discuss Sessional Paper No. 106, Tabled May 27, 1987, namely a Petition relating to live dancing entertainment in hotels and other licensed establishments.
16. *Mr McNeil*—Resolution—That, in the opinion of this House, the Government should bring forward Legislation dealing with the purchase or leasing of farm property. Specifically this Legislation should make it mandatory that any person or persons purchasing or leasing property in a bona fide agricultural area be informed of the conditions associated with farming and not in a position to harass or close down a bona fide farming operation.
17. *Mr Gillies*—Resolution—That, in the opinion of this House, the government's MISA program, which only covers companies dumping industrial effluent directly into the province's waterways, should be extended to now include the additional 97.5% of water polluters in this province that are dumping into the province's municipal sewer systems.
18. *Mr McGuigan*—Resolution—That, in the opinion of this House, the Social Development Committee should be asked to review the current state of regulations relating to required and recommended vaccinations of children in the Province of Ontario. In particular, the Social Development Committee should be asked that the following regulations, in conjunction with vaccine-injuries in Ontario, be recommended:
  - an effective means of information about the benefits and risks of immunization and about known contra-indications;
  - an effective method of parental instruction about how to deal with reactions, should they occur;
  - an effective reporting system of adverse reactions in order to reduce the likelihood that children will receive contra-indicated inoculations; and
  - a general assurance that recipients of government sponsored immunizations, who experienced a serious adverse reaction, will be provided with

compensation without the need to establish liability based on the elusive tort theory.

19. *Mr Bernier*—Resolution—That, in the opinion of this House, recognizing the importance that cottage lots play on the economic development of Northern Ontario and the social development of all Ontarians, the Government of Ontario should provide crown land in the north for the purpose of cottage lot development by Ontario residents.

### PRIVATE MEMBERS' MOTIONS

3. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail businesses in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986.
4. *Mr Gordon*—Resolution—That in the opinion of this House, recognizing:
  - That Northerners must contend with a higher cost of living because of the sparse population, long distances between cities, and a harsh climate,
  - That operating a car is a practical necessity in the North,
  - That the North is being economically discriminated against when gasoline prices are allowed to be 16 cents per gallon higher in Northern Ontario than in the South,
  - That Northerners pay \$71 million more every year for gasoline because of these higher prices,
  - That higher gasoline prices serve as a deterrent to northern economic development,
  - That high gasoline prices deter potential vacationers,
  - That higher gasoline prices are socially regressive given that incomes in the North are lower than those in the South,
  - That a cut in the price of gasoline would put money back into the pockets of ordinary Northerners, workers, pensioners, and those on fixed incomes who can better spend this money on the necessities of life,

— That higher gasoline prices cost Northerners money and jobs.

Therefore the Government of Ontario is called upon to act immediately to fulfil its promise of two years ago to equalize gasoline prices between Northern and Southern Ontario and put into practice the principle established in the Throne Speech that the best solutions are home-grown solutions.

5. *Mr Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by; (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called “Federated State of Northern Cyprus”; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.
6. *Mr Wildman*—Resolution—That in the opinion of this House the Canada Post Corporation’s plans to close, amalgamate or franchise many rural post offices and to eliminate or tender rural route services in order to reduce its operating deficit, would reduce essential mail services from many rural Ontario communities causing severe hardship and inconvenience to rural Ontarians, particularly the elderly and disabled; and the provincial government should urge the Government of Canada to halt immediately these plans to cut service and to maintain and improve rural postal services across Ontario.
12. *Mr Shymko*—Resolution—That, in the opinion of this House, the Government of Ontario should grant permission for the erection of a statue honouring the world-famous Italian explorer Giovanni Caboto (John Cabot) at an appropriate site on the grounds of the Main Legislative Building of the Parliament of Ontario in recognition of his landing on the Atlantic shore of Canada in 1497, as well as honouring and recognizing the Italian Canadian community’s immeasurable contribution to the development, growth and prosperity of Ontario and of Canada, and that appropriate funding be provided by the Government of Ontario jointly with other levels of government to a community based body that may wish to initiate and carry out this project under the auspices of and/or with the cooperation of the National Congress of Italian Canadians as well as under the patronage of the Governor-General of Canada, the Lieutenant-Governor of Ontario, the Prime Minister of Canada and the Premier of Ontario and other prominent citizens,

and that the statue be officially unveiled on June 24th, 1997, ten years hence, as part of the celebration of the 500th Anniversary of this historic event.

13. *Mr Wildman*—Resolution—That, in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.
15. *Mr Treleaven*—Motion under Standing Order No. 36 (a)—That this House discuss Sessional Paper No. 106, Tabled May 27, 1987, namely a Petition relating to live dancing entertainment in hotels and other licensed establishments.
16. *Mr McNeil*—Resolution—That, in the opinion of this House, the Government should bring forward Legislation dealing with the purchase or leasing of farm property. Specifically this Legislation should make it mandatory that any person or persons purchasing or leasing property in a bona fide agricultural area be informed of the conditions associated with farming and not in a position to harass or close down a bona fide farming operation.
17. *Debated June 11, 1987.*
18. *Mr McGuigan*—Resolution—That, in the opinion of this House, the Social Development Committee should be asked to review the current state of regulations relating to required and recommended vaccinations of children in the Province of Ontario. In particular, the Social Development Committee should be asked that the following regulations, in conjunction with vaccine-injuries in Ontario, be recommended:
  - an effective means of information about the benefits and risks of immunization and about known contra-indications;
  - an effective method of parental instruction about how to deal with reactions, should they occur;
  - an effective reporting system of adverse reactions in order to reduce the likelihood that children will receive contra-indicated inoculations; and
  - a general assurance that recipients of government sponsored immunizations, who experienced a serious adverse reaction, will be provided with compensation without the need to establish liability based on the elusive tort theory.
19. *Mr Bernier*—Resolution—That, in the opinion of this House, recognizing the importance that cottage lots play on the economic development of Northern Ontario and the social development of all Ontarians, the Government of Ontario should provide crown land in the north for the purpose of cottage lot development by Ontario residents.

20. *Mr Eves*—Resolution—That, in the opinion of this House, the Government should designate the *entire* riding of Parry Sound, specifically the District of Parry Sound, as being part of Northern Ontario for the purpose of all government ministries, agencies, boards and commissions.
  21. *Miss Stephenson*—Resolution—That, in the opinion of this House, recognizing that the Council of Metropolitan Toronto called the Sheppard subway line the number one transit priority in the Metropolitan Toronto area, that over six thousand people travel along the Sheppard-line corridor during peak periods, that the growing number of commuters are placing an increased burden on the present infrastructures, that the Network 2011 report was released and carefully studied since June 1986, that the costs of construction escalate with each passing year, and further recognizing that the Council of Metropolitan Toronto voted unanimously for immediate construction, the Government of Ontario should allocate funding for construction of the Sheppard subway line on an immediate basis.

## PRIVATE MEMBERS' BUSINESS TO BE DEBATED

*(Precedence in accordance with the Order of the House passed on Thursday, February 12, 1987, and pursuant to Standing Order 71 (d).)*

Ballot Item Nos. 12 and 13. *Debated June 11, 1987.*

Ballot Item No. 14

*Mr McNeil*—Resolution—That, in the opinion of this House, the Government should bring forward Legislation dealing with the purchase or leasing of farm property. Specifically this Legislation should make it mandatory that any person or persons purchasing or leasing property in a bona fide agricultural area be informed of the conditions associated with farming and not in a position to harass or close down a bona fide farming operation. *To be debated on Thursday, June 18, 1987.*

Ballot Item No. 15

*Mr Bernier*—Resolution—That, in the opinion of this House, recognizing the importance that cottage lots play on the economic development of Northern Ontario and the social development of all Ontarians, the Government of Ontario should provide crown land in the north for the purpose of cottage lot development by Ontario residents. *To be debated on Thursday, June 18, 1987.*

Ballot Item No. 16

*Mr Eves*—Resolution—That, in the opinion of this House, the Government should designate the *entire* riding of Parry Sound, specifically the District of Parry Sound, as being part of Northern Ontario for the purpose of all government ministries, agencies, boards and commissions. *To be debated on Thursday, June 25, 1987.*

Ballot Item No. 17

*Miss Stephenson*—Resolution—That, in the opinion of this House, recognizing that the Council of Metropolitan Toronto called the Sheppard subway line the number one transit priority in the Metropolitan Toronto area, that over six thousand people travel along the Sheppard-line corridor during peak periods, that the growing number of commuters are placing an increased burden on the present infrastructures, that the Network 2011 report was released and carefully studied since June 1986, that the costs of construction escalate with each passing year, and further recognizing that the Council of Metropolitan Toronto voted unanimously for immediate construction, the Government of Ontario should allocate funding for construction of the Sheppard subway line on an immediate basis. *To be debated on Thursday, June 25, 1987.*

### PRIVATE MEMBERS' MOTIONS

3. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail businesses in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986.
4. *Mr Gordon*—Resolution—That in the opinion of this House, recognizing:
  - That Northerners must contend with a higher cost of living because of the sparse population, long distances between cities, and a harsh climate,
  - That operating a car is a practical necessity in the North,
  - That the North is being economically discriminated against when gasoline prices are allowed to be 16 cents per gallon higher in Northern Ontario than in the South,
  - That Northerners pay \$71 million more every year for gasoline because of these higher prices,
  - That higher gasoline prices serve as a deterrent to northern economic development,
  - That high gasoline prices deter potential vacationers,
  - That higher gasoline prices are socially regressive given that incomes in the North are lower than those in the South,
  - That a cut in the price of gasoline would put money back into the pockets of ordinary Northerners, workers, pensioners, and those on fixed incomes who can better spend this money on the necessities of life,
  - That higher gasoline prices cost Northerners money and jobs.

Therefore the Government of Ontario is called upon to act immediately to fulfil its promise of two years ago to equalize gasoline prices between Northern and Southern Ontario and put into practice the principle established in the Throne Speech that the best solutions are home-grown solutions.

5. *Mr Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by; (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called “Federated State of Northern Cyprus”; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.
  
6. *Mr Wildman*—Resolution—That in the opinion of this House the Canada Post Corporation’s plans to close, amalgamate or franchise many rural post offices and to eliminate or tender rural route services in order to reduce its operating deficit, would reduce essential mail services from many rural Ontario communities causing severe hardship and inconvenience to rural Ontarians, particularly the elderly and disabled; and the provincial government should urge the Government of Canada to halt immediately these plans to cut service and to maintain and improve rural postal services across Ontario.
  
12. *Mr Shymko*—Resolution—That, in the opinion of this House, the Government of Ontario should grant permission for the erection of a statue honouring the world-famous Italian explorer Giovanni Caboto (John Cabot) at an appropriate site on the grounds of the Main Legislative Building of the Parliament of Ontario in recognition of his landing on the Atlantic shore of Canada in 1497, as well as honouring and recognizing the Italian Canadian community’s immeasurable contribution to the development, growth and prosperity of Ontario and of Canada, and that appropriate funding be provided by the Government of Ontario jointly with other levels of government to a community based body that may wish to initiate and carry out this project under the auspices of and/or with the cooperation of the National Congress of Italian Canadians as well as under the patronage of the Governor-General of Canada, the Lieutenant-Governor of Ontario, the Prime Minister of Canada and the Premier of Ontario and other prominent citizens, and that the statue be officially unveiled on June 24th, 1997, ten years hence, as part of the celebration of the 500th Anniversary of this historic event.

13. *Mr Wildman*—Resolution—That, in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.
15. *Mr Treleaven*—Motion under Standing Order No. 36 (a)—That this House discuss Sessional Paper No. 106, Tabled May 27, 1987, namely a Petition relating to live dancing entertainment in hotels and other licensed establishments.
16. *Mr McNeil*—Resolution—That, in the opinion of this House, the Government should bring forward Legislation dealing with the purchase or leasing of farm property. Specifically this Legislation should make it mandatory that any person or persons purchasing or leasing property in a bona fide agricultural area be informed of the conditions associated with farming and not in a position to harass or close down a bona fide farming operation.
18. *Mr McGuigan*—Resolution—That, in the opinion of this House, the Social Development Committee should be asked to review the current state of regulations relating to required and recommended vaccinations of children in the Province of Ontario. In particular, the Social Development Committee should be asked that the following regulations, in conjunction with vaccine-injuries in Ontario, be recommended:
  - an effective means of information about the benefits and risks of immunization and about known contra-indications;
  - an effective method of parental instruction about how to deal with reactions, should they occur;
  - an effective reporting system of adverse reactions in order to reduce the likelihood that children will receive contra-indicated inoculations; and
  - a general assurance that recipients of government sponsored immunizations, who experienced a serious adverse reaction, will be provided with compensation without the need to establish liability based on the elusive tort theory.
19. *Mr Bernier*—Resolution—That, in the opinion of this House, recognizing the importance that cottage lots play on the economic development of Northern Ontario and the social development of all Ontarians, the Government of Ontario should provide crown land in the north for the purpose of cottage lot development by Ontario residents.
20. *Mr Eves*—Resolution—That, in the opinion of this House, the Government should designate the *entire* riding of Parry Sound, specifically the District of Parry Sound, as being part of Northern Ontario for the purpose of all government ministries, agencies, boards and commissions.

21. *Miss Stephenson*—Resolution—That, in the opinion of this House, recognizing that the Council of Metropolitan Toronto called the Sheppard subway line the number one transit priority in the Metropolitan Toronto area, that over six thousand people travel along the Sheppard-line corridor during peak periods, that the growing number of commuters are placing an increased burden on the present infrastructures, that the Network 2011 report was released and carefully studied since June 1986, that the costs of construction escalate with each passing year, and further recognizing that the Council of Metropolitan Toronto voted unanimously for immediate construction, the Government of Ontario should allocate funding for construction of the Sheppard subway line on an immediate basis.

## NOTICES

### GOVERNMENT MOTIONS

6. *Debated May 20, 21, 25, 27, June 3 and 4, 1987.*
  9. *Debated May 26, 1987.*
  10. *Debated June 11 and 15, 1987.*
- 

### PRIVATE MEMBERS' MOTIONS

3. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail businesses in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986.
4. *Mr Gordon*—Resolution—That in the opinion of this House, recognizing:
  - That Northerners must contend with a higher cost of living because of the sparse population, long distances between cities, and a harsh climate,
  - That operating a car is a practical necessity in the North,
  - That the North is being economically discriminated against when gasoline prices are allowed to be 16 cents per gallon higher in Northern Ontario than in the South,
  - That Northerners pay \$71 million more every year for gasoline because of these higher prices,
  - That higher gasoline prices serve as a deterrent to northern economic development,
  - That high gasoline prices deter potential vacationers,
  - That higher gasoline prices are socially regressive given that incomes in the North are lower than those in the South,
  - That a cut in the price of gasoline would put money back into the pockets of ordinary Northerners, workers, pensioners, and those on fixed incomes who can better spend this money on the necessities of life,
  - That higher gasoline prices cost Northerners money and jobs.

Therefore the Government of Ontario is called upon to act immediately to fulfil its promise of two years ago to equalize gasoline prices between Northern and Southern Ontario and put into practice the principle established in the Throne Speech that the best solutions are home-grown solutions.

5. *Mr Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by; (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called “Federated State of Northern Cyprus”; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.
  
6. *Mr Wildman*—Resolution—That in the opinion of this House the Canada Post Corporation’s plans to close, amalgamate or franchise many rural post offices and to eliminate or tender rural route services in order to reduce its operating deficit, would reduce essential mail services from many rural Ontario communities causing severe hardship and inconvenience to rural Ontarians, particularly the elderly and disabled; and the provincial government should urge the Government of Canada to halt immediately these plans to cut service and to maintain and improve rural postal services across Ontario.
  
12. *Mr Shymko*—Resolution—That, in the opinion of this House, the Government of Ontario should grant permission for the erection of a statue honouring the world-famous Italian explorer Giovanni Caboto (John Cabot) at an appropriate site on the grounds of the Main Legislative Building of the Parliament of Ontario in recognition of his landing on the Atlantic shore of Canada in 1497, as well as honouring and recognizing the Italian Canadian community’s immeasurable contribution to the development, growth and prosperity of Ontario and of Canada, and that appropriate funding be provided by the Government of Ontario jointly with other levels of government to a community based body that may wish to initiate and carry out this project under the auspices of and/or with the cooperation of the National Congress of Italian Canadians as well as under the patronage of the Governor-General of Canada, the Lieutenant-Governor of Ontario, the Prime Minister of Canada and the Premier of Ontario and other prominent citizens, and that the statue be officially unveiled on June 24th, 1997, ten years hence, as part of the celebration of the 500th Anniversary of this historic event.

13. *Mr Wildman*—Resolution—That, in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.
15. *Mr Treleaven*—Motion under Standing Order No. 36 (a)—That this House discuss Sessional Paper No. 106, Tabled May 27, 1987, namely a Petition relating to live dancing entertainment in hotels and other licensed establishments.
16. *Mr McNeil*—Resolution—That, in the opinion of this House, the Government should bring forward Legislation dealing with the purchase or leasing of farm property. Specifically this Legislation should make it mandatory that any person or persons purchasing or leasing property in a bona fide agricultural area be informed of the conditions associated with farming and not in a position to harass or close down a bona fide farming operation.
18. *Mr McGuigan*—Resolution—That, in the opinion of this House, the Social Development Committee should be asked to review the current state of regulations relating to required and recommended vaccinations of children in the Province of Ontario. In particular, the Social Development Committee should be asked that the following regulations, in conjunction with vaccine-injuries in Ontario, be recommended:
  - an effective means of information about the benefits and risks of immunization and about known contra-indications;
  - an effective method of parental instruction about how to deal with reactions, should they occur;
  - an effective reporting system of adverse reactions in order to reduce the likelihood that children will receive contra-indicated inoculations; and
  - a general assurance that recipients of government sponsored immunizations, who experienced a serious adverse reaction, will be provided with compensation without the need to establish liability based on the elusive tort theory.
19. *Mr Bernier*—Resolution—That, in the opinion of this House, recognizing the importance that cottage lots play on the economic development of Northern Ontario and the social development of all Ontarians, the Government of Ontario should provide crown land in the north for the purpose of cottage lot development by Ontario residents.
20. *Mr Eves*—Resolution—That, in the opinion of this House, the Government should designate the *entire* riding of Parry Sound, specifically the District of Parry Sound, as being part of Northern Ontario for the purpose of all government ministries, agencies, boards and commissions.

21. *Miss Stephenson*—Resolution—That, in the opinion of this House, recognizing that the Council of Metropolitan Toronto called the Sheppard subway line the number one transit priority in the Metropolitan Toronto area, that over six thousand people travel along the Sheppard-line corridor during peak periods, that the growing number of commuters are placing an increased burden on the present infrastructures, that the Network 2011 report was released and carefully studied since June 1986, that the costs of construction escalate with each passing year, and further recognizing that the Council of Metropolitan Toronto voted unanimously for immediate construction, the Government of Ontario should allocate funding for construction of the Sheppard subway line on an immediate basis.

### PRIVATE MEMBERS' MOTIONS

3. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail businesses in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986.
4. *Mr Gordon*—Resolution—That in the opinion of this House, recognizing:
  - That Northerners must contend with a higher cost of living because of the sparse population, long distances between cities, and a harsh climate,
  - That operating a car is a practical necessity in the North,
  - That the North is being economically discriminated against when gasoline prices are allowed to be 16 cents per gallon higher in Northern Ontario than in the South,
  - That Northerners pay \$71 million more every year for gasoline because of these higher prices,
  - That higher gasoline prices serve as a deterrent to northern economic development,
  - That high gasoline prices deter potential vacationers,
  - That higher gasoline prices are socially regressive given that incomes in the North are lower than those in the South,
  - That a cut in the price of gasoline would put money back into the pockets of ordinary Northerners, workers, pensioners, and those on fixed incomes who can better spend this money on the necessities of life,
  - That higher gasoline prices cost Northerners money and jobs.

Therefore the Government of Ontario is called upon to act immediately to fulfil its promise of two years ago to equalize gasoline prices between Northern and Southern Ontario and put into practice the principle established in the Throne Speech that the best solutions are home-grown solutions.

5. *Mr Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by; (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called “Federated State of Northern Cyprus”; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.
  
6. *Mr Wildman*—Resolution—That in the opinion of this House the Canada Post Corporation’s plans to close, amalgamate or franchise many rural post offices and to eliminate or tender rural route services in order to reduce its operating deficit, would reduce essential mail services from many rural Ontario communities causing severe hardship and inconvenience to rural Ontarians, particularly the elderly and disabled; and the provincial government should urge the Government of Canada to halt immediately these plans to cut service and to maintain and improve rural postal services across Ontario.
  
12. *Mr Shymko*—Resolution—That, in the opinion of this House, the Government of Ontario should grant permission for the erection of a statue honouring the world-famous Italian explorer Giovanni Caboto (John Cabot) at an appropriate site on the grounds of the Main Legislative Building of the Parliament of Ontario in recognition of his landing on the Atlantic shore of Canada in 1497, as well as honouring and recognizing the Italian Canadian community’s immeasurable contribution to the development, growth and prosperity of Ontario and of Canada, and that appropriate funding be provided by the Government of Ontario jointly with other levels of government to a community based body that may wish to initiate and carry out this project under the auspices of and/or with the cooperation of the National Congress of Italian Canadians as well as under the patronage of the Governor-General of Canada, the Lieutenant-Governor of Ontario, the Prime Minister of Canada and the Premier of Ontario and other prominent citizens, and that the statue be officially unveiled on June 24th, 1997, ten years hence, as part of the celebration of the 500th Anniversary of this historic event.

13. *Mr Wildman*—Resolution—That, in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.
15. *Mr Treleaven*—Motion under Standing Order No. 36 (a)—That this House discuss Sessional Paper No. 106, Tabled May 27, 1987, namely a Petition relating to live dancing entertainment in hotels and other licensed establishments.
16. *Mr McNeil*—Resolution—That, in the opinion of this House, the Government should bring forward Legislation dealing with the purchase or leasing of farm property. Specifically this Legislation should make it mandatory that any person or persons purchasing or leasing property in a bona fide agricultural area be informed of the conditions associated with farming and not be in a position to harass or close down a bona fide farming operation.
18. *Mr McGuigan*—Resolution—That, in the opinion of this House, the Social Development Committee should be asked to review the current state of regulations relating to required and recommended vaccinations of children in the Province of Ontario. In particular, the Social Development Committee should be asked that the following regulations, in conjunction with vaccine-injuries in Ontario, be recommended:
  - an effective means of information about the benefits and risks of immunization and about known contra-indications;
  - an effective method of parental instruction about how to deal with reactions, should they occur;
  - an effective reporting system of adverse reactions in order to reduce the likelihood that children will receive contra-indicated inoculations; and
  - a general assurance that recipients of government sponsored immunizations, who experienced a serious adverse reaction, will be provided with compensation without the need to establish liability based on the elusive tort theory.
19. *Mr Bernier*—Resolution—That, in the opinion of this House, recognizing the importance that cottage lots play on the economic development of Northern Ontario and the social development of all Ontarians, the Government of Ontario should provide crown land in the north for the purpose of cottage lot development by Ontario residents.
20. *Mr Eves*—Resolution—That, in the opinion of this House, the Government should designate the *entire* riding of Parry Sound, specifically the District of Parry Sound, as being part of Northern Ontario for the purpose of all government ministries, agencies, boards and commissions.

21. *Miss Stephenson*—Resolution—That, in the opinion of this House, recognizing that the Council of Metropolitan Toronto called the Sheppard subway line the number one transit priority in the Metropolitan Toronto area, that over six thousand people travel along the Sheppard-line corridor during peak periods, that the growing number of commuters are placing an increased burden on the present infrastructures, that the Network 2011 report was released and carefully studied since June 1986, that the costs of construction escalate with each passing year, and further recognizing that the Council of Metropolitan Toronto voted unanimously for immediate construction, the Government of Ontario should allocate funding for construction of the Sheppard subway line on an immediate basis.
  22. *Mr Treleaven*—Motion under Standing Order No. 36 (a)—That this House discuss Sessional Paper No. 138, Tabled June 16, 1987, namely a Petition calling for an immediate investigation into the unusually high incidence of Multiple Sclerosis in the North Central part of Woodstock, Ontario.
  23. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment.

### PRIVATE MEMBERS' MOTIONS

3. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail businesses in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986.
4. *Mr Gordon*—Resolution—That in the opinion of this House, recognizing:
  - That Northerners must contend with a higher cost of living because of the sparse population, long distances between cities, and a harsh climate,
  - That operating a car is a practical necessity in the North,
  - That the North is being economically discriminated against when gasoline prices are allowed to be 16 cents per gallon higher in Northern Ontario than in the South,
  - That Northerners pay \$71 million more every year for gasoline because of these higher prices,
  - That higher gasoline prices serve as a deterrent to northern economic development,
  - That high gasoline prices deter potential vacationers,
  - That higher gasoline prices are socially regressive given that incomes in the North are lower than those in the South,
  - That a cut in the price of gasoline would put money back into the pockets of ordinary Northerners, workers, pensioners, and those on fixed incomes who can better spend this money on the necessities of life,
  - That higher gasoline prices cost Northerners money and jobs.

Therefore the Government of Ontario is called upon to act immediately to fulfil its promise of two years ago to equalize gasoline prices between Northern and Southern Ontario and put into practice the principle established in the Throne Speech that the best solutions are home-grown solutions.

5. *Mr Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by; (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called “Federated State of Northern Cyprus”; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.
6. *Mr Wildman*—Resolution—That in the opinion of this House the Canada Post Corporation’s plans to close, amalgamate or franchise many rural post offices and to eliminate or tender rural route services in order to reduce its operating deficit, would reduce essential mail services from many rural Ontario communities causing severe hardship and inconvenience to rural Ontarians, particularly the elderly and disabled; and the provincial government should urge the Government of Canada to halt immediately these plans to cut service and to maintain and improve rural postal services across Ontario.
12. *Mr Shymko*—Resolution—That, in the opinion of this House, the Government of Ontario should grant permission for the erection of a statue honouring the world-famous Italian explorer Giovanni Caboto (John Cabot) at an appropriate site on the grounds of the Main Legislative Building of the Parliament of Ontario in recognition of his landing on the Atlantic shore of Canada in 1497, as well as honouring and recognizing the Italian Canadian community’s immeasurable contribution to the development, growth and prosperity of Ontario and of Canada, and that appropriate funding be provided by the Government of Ontario jointly with other levels of government to a community based body that may wish to initiate and carry out this project under the auspices of and/or with the cooperation of the National Congress of Italian Canadians as well as under the patronage of the Governor-General of Canada, the Lieutenant-Governor of Ontario, the Prime Minister of Canada and the Premier of Ontario and other prominent citizens, and that the statue be officially unveiled on June 24th, 1997, ten years hence, as part of the celebration of the 500th Anniversary of this historic event.

13. *Mr Wildman*—Resolution—That, in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.
15. *Mr Treleaven*—Motion under Standing Order No. 36 (a)—That this House discuss Sessional Paper No. 106, Tabled May 27, 1987, namely a Petition relating to live dancing entertainment in hotels and other licensed establishments.
16. *Debated June 18, 1987.*
18. *Mr McGuigan*—Resolution—That, in the opinion of this House, the Social Development Committee should be asked to review the current state of regulations relating to required and recommended vaccinations of children in the Province of Ontario. In particular, the Social Development Committee should be asked that the following regulations, in conjunction with vaccine-injuries in Ontario, be recommended:
  - an effective means of information about the benefits and risks of immunization and about known contra-indications;
  - an effective method of parental instruction about how to deal with reactions, should they occur;
  - an effective reporting system of adverse reactions in order to reduce the likelihood that children will receive contra-indicated inoculations; and
  - a general assurance that recipients of government sponsored immunizations, who experienced a serious adverse reaction, will be provided with compensation without the need to establish liability based on the elusive tort theory.
19. *Debated June 18, 1987.*
20. *Mr Eves*—Resolution—That, in the opinion of this House, the Government should designate the *entire* riding of Parry Sound, specifically the District of Parry Sound, as being part of Northern Ontario for the purpose of all government ministries, agencies, boards and commissions.
21. *Miss Stephenson*—Resolution—That, in the opinion of this House, recognizing that the Council of Metropolitan Toronto called the Sheppard subway line the number one transit priority in the Metropolitan Toronto area, that over six thousand people travel along the Sheppard-line corridor during peak periods, that the growing number of commuters are placing an increased burden on the present infrastructures, that the Network 2011 report was released and carefully studied since June 1986, that the costs of construction escalate with each passing year, and further recognizing that the Council of

Metropolitan Toronto voted unanimously for immediate construction, the Government of Ontario should allocate funding for construction of the Sheppard subway line on an immediate basis.

22. *Mr Treleaven*—Motion under Standing Order No. 36 (a)—That this House discuss Sessional Paper No. 138, Tabled June 16, 1987, namely a Petition calling for an immediate investigation into the unusually high incidence of Multiple Sclerosis in the North Central part of Woodstock, Ontario.
  23. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment.

## PRIVATE MEMBERS' BUSINESS TO BE DEBATED

*(Precedence in accordance with the Order of the House passed on Thursday, February 12, 1987, and pursuant to Standing Order 71 (d).)*

Ballot Item Nos. 14 and 15. *Debated June 18, 1987.*

Ballot Item No. 16

*Mr Eves*—Resolution—That, in the opinion of this House, the Government should designate the *entire* riding of Parry Sound, specifically the District of Parry Sound, as being part of Northern Ontario for the purpose of all government ministries, agencies, boards and commissions. *To be debated on Thursday, June 25, 1987.*

Ballot Item No. 17

*Miss Stephenson*—Resolution—That, in the opinion of this House, recognizing that the Council of Metropolitan Toronto called the Sheppard subway line the number one transit priority in the Metropolitan Toronto area, that over six thousand people travel along the Sheppard-line corridor during peak periods, that the growing number of commuters are placing an increased burden on the present infrastructures, that the Network 2011 report was released and carefully studied since June 1986, that the costs of construction escalate with each passing year, and further recognizing that the Council of Metropolitan Toronto voted unanimously for immediate construction, the Government of Ontario should allocate funding for construction of the Sheppard subway line on an immediate basis. *To be debated on Thursday, June 25, 1987.*

### PRIVATE MEMBERS' MOTIONS

3. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail businesses in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986.
4. *Mr Gordon*—Resolution—That in the opinion of this House, recognizing:
  - That Northerners must contend with a higher cost of living because of the sparse population, long distances between cities, and a harsh climate,
  - That operating a car is a practical necessity in the North,
  - That the North is being economically discriminated against when gasoline prices are allowed to be 16 cents per gallon higher in Northern Ontario than in the South,
  - That Northerners pay \$71 million more every year for gasoline because of these higher prices,
  - That higher gasoline prices serve as a deterrent to northern economic development,
  - That high gasoline prices deter potential vacationers,
  - That higher gasoline prices are socially regressive given that incomes in the North are lower than those in the South,
  - That a cut in the price of gasoline would put money back into the pockets of ordinary Northerners, workers, pensioners, and those on fixed incomes who can better spend this money on the necessities of life,
  - That higher gasoline prices cost Northerners money and jobs.

Therefore the Government of Ontario is called upon to act immediately to fulfil its promise of two years ago to equalize gasoline prices between Northern and Southern Ontario and put into practice the principle established in the Throne Speech that the best solutions are home-grown solutions.

5. *Mr Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by; (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called “Federated State of Northern Cyprus”; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.
  
6. *Mr Wildman*—Resolution—That in the opinion of this House the Canada Post Corporation’s plans to close, amalgamate or franchise many rural post offices and to eliminate or tender rural route services in order to reduce its operating deficit, would reduce essential mail services from many rural Ontario communities causing severe hardship and inconvenience to rural Ontarians, particularly the elderly and disabled; and the provincial government should urge the Government of Canada to halt immediately these plans to cut service and to maintain and improve rural postal services across Ontario.
  
12. *Mr Shymko*—Resolution—That, in the opinion of this House, the Government of Ontario should grant permission for the erection of a statue honouring the world-famous Italian explorer Giovanni Caboto (John Cabot) at an appropriate site on the grounds of the Main Legislative Building of the Parliament of Ontario in recognition of his landing on the Atlantic shore of Canada in 1497, as well as honouring and recognizing the Italian Canadian community’s immeasurable contribution to the development, growth and prosperity of Ontario and of Canada, and that appropriate funding be provided by the Government of Ontario jointly with other levels of government to a community based body that may wish to initiate and carry out this project under the auspices of and/or with the cooperation of the National Congress of Italian Canadians as well as under the patronage of the Governor-General of Canada, the Lieutenant-Governor of Ontario, the Prime Minister of Canada and the Premier of Ontario and other prominent citizens, and that the statue be officially unveiled on June 24th, 1997, ten years hence, as part of the celebration of the 500th Anniversary of this historic event.

13. *Mr Wildman*—Resolution—That, in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.
15. *Mr Treleaven*—Motion under Standing Order No. 36 (a)—That this House discuss Sessional Paper No. 106, Tabled May 27, 1987, namely a Petition relating to live dancing entertainment in hotels and other licensed establishments.
18. *Mr McGuigan*—Resolution—That, in the opinion of this House, the Social Development Committee should be asked to review the current state of regulations relating to required and recommended vaccinations of children in the Province of Ontario. In particular, the Social Development Committee should be asked that the following regulations, in conjunction with vaccine-injuries in Ontario, be recommended:
  - an effective means of information about the benefits and risks of immunization and about known contra-indications;
  - an effective method of parental instruction about how to deal with reactions, should they occur;
  - an effective reporting system of adverse reactions in order to reduce the likelihood that children will receive contra-indicated inoculations; and
  - a general assurance that recipients of government sponsored immunizations, who experienced a serious adverse reaction, will be provided with compensation without the need to establish liability based on the elusive tort theory.
20. *Mr Eves*—Resolution—That, in the opinion of this House, the Government should designate the *entire* riding of Parry Sound, specifically the District of Parry Sound, as being part of Northern Ontario for the purpose of all government ministries, agencies, boards and commissions.
21. *Miss Stephenson*—Resolution—That, in the opinion of this House, recognizing that the Council of Metropolitan Toronto called the Sheppard subway line the number one transit priority in the Metropolitan Toronto area, that over six thousand people travel along the Sheppard-line corridor during peak periods, that the growing number of commuters are placing an increased burden on the present infrastructures, that the Network 2011 report was released and carefully studied since June 1986, that the costs of construction escalate with each passing year, and further recognizing that the Council of Metropolitan Toronto voted unanimously for immediate construction, the Government of Ontario should allocate funding for construction of the Sheppard subway line on an immediate basis.

22. *Mr Treleaven*—Motion under Standing Order No. 36 (a)—That this House discuss Sessional Paper No. 138, Tabled June 16, 1987, namely a Petition calling for an immediate investigation into the unusually high incidence of Multiple Sclerosis in the North Central part of Woodstock, Ontario.
23. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment.

### PRIVATE MEMBERS' MOTIONS

3. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail businesses in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986.
4. *Mr Gordon*—Resolution—That in the opinion of this House, recognizing:
  - That Northerners must contend with a higher cost of living because of the sparse population, long distances between cities, and a harsh climate,
  - That operating a car is a practical necessity in the North,
  - That the North is being economically discriminated against when gasoline prices are allowed to be 16 cents per gallon higher in Northern Ontario than in the South,
  - That Northerners pay \$71 million more every year for gasoline because of these higher prices,
  - That higher gasoline prices serve as a deterrent to northern economic development,
  - That high gasoline prices deter potential vacationers,
  - That higher gasoline prices are socially regressive given that incomes in the North are lower than those in the South,
  - That a cut in the price of gasoline would put money back into the pockets of ordinary Northerners, workers, pensioners, and those on fixed incomes who can better spend this money on the necessities of life,
  - That higher gasoline prices cost Northerners money and jobs.

Therefore the Government of Ontario is called upon to act immediately to fulfil its promise of two years ago to equalize gasoline prices between Northern and Southern Ontario and put into practice the principle established in the Throne Speech that the best solutions are home-grown solutions.

5. *Mr Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by; (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called “Federated State of Northern Cyprus”; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.
  
6. *Mr Wildman*—Resolution—That in the opinion of this House the Canada Post Corporation’s plans to close, amalgamate or franchise many rural post offices and to eliminate or tender rural route services in order to reduce its operating deficit, would reduce essential mail services from many rural Ontario communities causing severe hardship and inconvenience to rural Ontarians, particularly the elderly and disabled; and the provincial government should urge the Government of Canada to halt immediately these plans to cut service and to maintain and improve rural postal services across Ontario.
  
12. *Mr Shymko*—Resolution—That, in the opinion of this House, the Government of Ontario should grant permission for the erection of a statue honouring the world-famous Italian explorer Giovanni Caboto (John Cabot) at an appropriate site on the grounds of the Main Legislative Building of the Parliament of Ontario in recognition of his landing on the Atlantic shore of Canada in 1497, as well as honouring and recognizing the Italian Canadian community’s immeasurable contribution to the development, growth and prosperity of Ontario and of Canada, and that appropriate funding be provided by the Government of Ontario jointly with other levels of government to a community based body that may wish to initiate and carry out this project under the auspices of and/or with the cooperation of the National Congress of Italian Canadians as well as under the patronage of the Governor-General of Canada, the Lieutenant-Governor of Ontario, the Prime Minister of Canada and the Premier of Ontario and other prominent citizens, and that the statue be officially unveiled on June 24th, 1997, ten years hence, as part of the celebration of the 500th Anniversary of this historic event.

13. *Mr Wildman*—Resolution—That, in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.
15. *Mr Treleaven*—Motion under Standing Order No. 36 (a)—That this House discuss Sessional Paper No. 106, Tabled May 27, 1987, namely a Petition relating to live dancing entertainment in hotels and other licensed establishments.
18. *Mr McGuigan*—Resolution—That, in the opinion of this House, the Social Development Committee should be asked to review the current state of regulations relating to required and recommended vaccinations of children in the Province of Ontario. In particular, the Social Development Committee should be asked that the following regulations, in conjunction with vaccine-injuries in Ontario, be recommended:
  - an effective means of information about the benefits and risks of immunization and about known contra-indications;
  - an effective method of parental instruction about how to deal with reactions, should they occur;
  - an effective reporting system of adverse reactions in order to reduce the likelihood that children will receive contra-indicated inoculations; and
  - a general assurance that recipients of government sponsored immunizations, who experienced a serious adverse reaction, will be provided with compensation without the need to establish liability based on the elusive tort theory.
20. *Mr Eves*—Resolution—That, in the opinion of this House, the Government should designate the *entire* riding of Parry Sound, specifically the District of Parry Sound, as being part of Northern Ontario for the purpose of all government ministries, agencies, boards and commissions.
21. *Miss Stephenson*—Resolution—That, in the opinion of this House, recognizing that the Council of Metropolitan Toronto called the Sheppard subway line the number one transit priority in the Metropolitan Toronto area, that over six thousand people travel along the Sheppard-line corridor during peak periods, that the growing number of commuters are placing an increased burden on the present infrastructures, that the Network 2011 report was released and carefully studied since June 1986, that the costs of construction escalate with each passing year, and further recognizing that the Council of Metropolitan Toronto voted unanimously for immediate construction, the Government of Ontario should allocate funding for construction of the Sheppard subway line on an immediate basis.

22. *Mr Treleaven*—Motion under Standing Order No. 36 (a)—That this House discuss Sessional Paper No. 138, Tabled June 16, 1987, namely a Petition calling for an immediate investigation into the unusually high incidence of Multiple Sclerosis in the North Central part of Woodstock, Ontario.
23. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment.

### PRIVATE MEMBERS' MOTIONS

3. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail businesses in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986.
4. *Mr Gordon*—Resolution—That in the opinion of this House, recognizing:
  - That Northerners must contend with a higher cost of living because of the sparse population, long distances between cities, and a harsh climate,
  - That operating a car is a practical necessity in the North,
  - That the North is being economically discriminated against when gasoline prices are allowed to be 16 cents per gallon higher in Northern Ontario than in the South,
  - That Northerners pay \$71 million more every year for gasoline because of these higher prices,
  - That higher gasoline prices serve as a deterrent to northern economic development,
  - That high gasoline prices deter potential vacationers,
  - That higher gasoline prices are socially regressive given that incomes in the North are lower than those in the South,
  - That a cut in the price of gasoline would put money back into the pockets of ordinary Northerners, workers, pensioners, and those on fixed incomes who can better spend this money on the necessities of life,
  - That higher gasoline prices cost Northerners money and jobs.

Therefore the Government of Ontario is called upon to act immediately to fulfil its promise of two years ago to equalize gasoline prices between Northern and Southern Ontario and put into practice the principle established in the Throne Speech that the best solutions are home-grown solutions.

5. *Mr Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by; (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called “Federated State of Northern Cyprus”; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.
  
6. *Mr Wildman*—Resolution—That in the opinion of this House the Canada Post Corporation’s plans to close, amalgamate or franchise many rural post offices and to eliminate or tender rural route services in order to reduce its operating deficit, would reduce essential mail services from many rural Ontario communities causing severe hardship and inconvenience to rural Ontarians, particularly the elderly and disabled; and the provincial government should urge the Government of Canada to halt immediately these plans to cut service and to maintain and improve rural postal services across Ontario.
  
12. *Mr Shymko*—Resolution—That, in the opinion of this House, the Government of Ontario should grant permission for the erection of a statue honouring the world-famous Italian explorer Giovanni Caboto (John Cabot) at an appropriate site on the grounds of the Main Legislative Building of the Parliament of Ontario in recognition of his landing on the Atlantic shore of Canada in 1497, as well as honouring and recognizing the Italian Canadian community’s immeasurable contribution to the development, growth and prosperity of Ontario and of Canada, and that appropriate funding be provided by the Government of Ontario jointly with other levels of government to a community based body that may wish to initiate and carry out this project under the auspices of and/or with the cooperation of the National Congress of Italian Canadians as well as under the patronage of the Governor-General of Canada, the Lieutenant-Governor of Ontario, the Prime Minister of Canada and the Premier of Ontario and other prominent citizens, and that the statue be officially unveiled on June 24th, 1997, ten years hence, as part of the celebration of the 500th Anniversary of this historic event.

13. *Mr Wildman*—Resolution—That, in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.
15. *Mr Treleven*—Motion under Standing Order No. 36 (a)—That this House discuss Sessional Paper No. 106, Tabled May 27, 1987, namely a Petition relating to live dancing entertainment in hotels and other licensed establishments.
18. *Mr McGuigan*—Resolution—That, in the opinion of this House, the Social Development Committee should be asked to review the current state of regulations relating to required and recommended vaccinations of children in the Province of Ontario. In particular, the Social Development Committee should be asked that the following regulations, in conjunction with vaccine-injuries in Ontario, be recommended:
  - an effective means of information about the benefits and risks of immunization and about known contra-indications;
  - an effective method of parental instruction about how to deal with reactions, should they occur;
  - an effective reporting system of adverse reactions in order to reduce the likelihood that children will receive contra-indicated inoculations; and
  - a general assurance that recipients of government sponsored immunizations, who experienced a serious adverse reaction, will be provided with compensation without the need to establish liability based on the elusive tort theory.
20. *Mr Eves*—Resolution—That, in the opinion of this House, the Government should designate the *entire* riding of Parry Sound, specifically the District of Parry Sound, as being part of Northern Ontario for the purpose of all government ministries, agencies, boards and commissions.
21. *Miss Stephenson*—Resolution—That, in the opinion of this House, recognizing that the Council of Metropolitan Toronto called the Sheppard subway line the number one transit priority in the Metropolitan Toronto area, that over six thousand people travel along the Sheppard-line corridor during peak periods, that the growing number of commuters are placing an increased burden on the present infrastructures, that the Network 2011 report was released and carefully studied since June 1986, that the costs of construction escalate with each passing year, and further recognizing that the Council of Metropolitan Toronto voted unanimously for immediate construction, the Government of Ontario should allocate funding for construction of the Sheppard subway line on an immediate basis.

22. *Mr Treleaven*—Motion under Standing Order No. 36 (a)—That this House discuss Sessional Paper No. 138, Tabled June 16, 1987, namely a Petition calling for an immediate investigation into the unusually high incidence of Multiple Sclerosis in the North Central part of Woodstock, Ontario.
23. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment.
24. *Mr Charlton*—Resolution—That, in the opinion of this House, recognizing that since the introduction of appliance efficiency standards would encourage electricity conservation, appliance efficiency standards should be a part of an integral approach to electricity conservation opportunities, electricity supply and acid rain abatement; and that the implementation of such standards in Ontario would increase the efficiency of products made in or sold in Ontario, result in significant energy and net cost savings to Canadian consumers, reduce the needs for new electrical generating capacity in Ontario, stimulate technology transfer to and investment in the Ontario manufacturing industry and increase competitiveness of the Canadian industry and maintain current employment; Therefor: Appliance efficiency standards should apply to,
- (a) household appliances such as refrigerators, dishwashers, freezers, clothes washers, clothes dryers, ranges; and
  - (b) heating and cooling equipment including furnaces, room air conditioners, water heaters, central air conditioners and heat pumps;

Standards should be compatible with the National Appliance Energy Conservation Act, 1987 (U.S.);

Labelling should be specific and include a basic energy cost comparison on label, i.e. dollar cost of operation under typical conditions with a rating system to be used based on performance costs and administered by the Ministry of Consumer and Commercial Relations;

Implementation should take effect in 1988, 1990 or 1992 depending on the product and achieved through a consultative process with industry, consumer, government and other interests;

Standards should be reviewed at least every five years;

The Government of Ontario should exercise the powers given it under the Ministry of Energy Act to encourage prudence in the use of energy in Ontario by enacting an act to provide for appliance efficiency standards.

25. *Mr Charlton*—Resolution—That, in the opinion of this House, recognizing that current standards of residential construction result in energy demands above that technically feasible and economically justified;

That the beneficial impact of energy efficiency on the Ontario economy and environment cannot be overestimated;

That the consequences of inefficient housing standards are financial burdens for all energy users;

That consequences of inefficient housing standards are an ever-increasing threat to the environment;

That increased demand on utility supply imposed by new housing results in new power plants, transmission lines, and other capital-intensive projects;

That an aggressive strategy aimed at the universal production of energy-efficient housing will yield superior quality housing, greater affordability, the avoidance of capital intensive utility investments, increased employment, and reduced environmental impacts;

That minimum housing efficiency standards in Ontario should be brought in line with levels of efficiency that economics dictate;

Therefore, the Government of Ontario should,

- (a) immediately adopt, in the Ontario Building Code, the National Building Code Measures for Energy Conservation as a direct, low cost and fair means of achieving an improvement in the quality and affordability of Ontario housing;
- (b) adopt, by the end of the year, new ventilation requirements using Canadian Standard Association standards;
- (c) establish an Energy Conservation, Codes and Standards Committee to recommend energy performance targets;
- (d) establish the form of Code amendments, support enforcement, technical transfer, monitoring and new standards;
- (e) create a Home Labelling Program to enable consumers to readily distinguish products on the basis of energy performance;
- (f) set mandatory energy-efficiency standards at least-cost levels for all government-assisted housing; and
- (g) conduct the program under the administration of the Ministry of Energy with participation by other bodies.

26. *Mr Runciman*—Resolution—That, in the opinion of this House, the Government of Ontario should take immediately action to remove “Stomach

Bitters" from variety and grocery stores and that such products be only available and sold through Liquor Control Board outlets.

## PRIVATE MEMBERS' MOTIONS

3. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail businesses in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986.
4. *Mr Gordon*—Resolution—That in the opinion of this House, recognizing:
  - That Northerners must contend with a higher cost of living because of the sparse population, long distances between cities, and a harsh climate,
  - That operating a car is a practical necessity in the North,
  - That the North is being economically discriminated against when gasoline prices are allowed to be 16 cents per gallon higher in Northern Ontario than in the South,
  - That Northerners pay \$71 million more every year for gasoline because of these higher prices,
  - That higher gasoline prices serve as a deterrent to northern economic development,
  - That high gasoline prices deter potential vacationers,
  - That higher gasoline prices are socially regressive given that incomes in the North are lower than those in the South,
  - That a cut in the price of gasoline would put money back into the pockets of ordinary Northerners, workers, pensioners, and those on fixed incomes who can better spend this money on the necessities of life,
  - That higher gasoline prices cost Northerners money and jobs.

Therefore the Government of Ontario is called upon to act immediately to fulfil its promise of two years ago to equalize gasoline prices between Northern and Southern Ontario and put into practice the principle established in the Throne Speech that the best solutions are home-grown solutions.

5. *Mr Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by; (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate

information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called "Federated State of Northern Cyprus"; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.

6. *Mr Wildman*—Resolution—That in the opinion of this House the Canada Post Corporation's plans to close, amalgamate or franchise many rural post offices and to eliminate or tender rural route services in order to reduce its operating deficit, would reduce essential mail services from many rural Ontario communities causing severe hardship and inconvenience to rural Ontarians, particularly the elderly and disabled; and the provincial government should urge the Government of Canada to halt immediately these plans to cut service and to maintain and improve rural postal services across Ontario.
12. *Mr Shymko*—Resolution—That, in the opinion of this House, the Government of Ontario should grant permission for the erection of a statue honouring the world-famous Italian explorer Giovanni Caboto (John Cabot) at an appropriate site on the grounds of the Main Legislative Building of the Parliament of Ontario in recognition of his landing on the Atlantic shore of Canada in 1497, as well as honouring and recognizing the Italian Canadian community's immeasurable contribution to the development, growth and prosperity of Ontario and of Canada, and that appropriate funding be provided by the Government of Ontario jointly with other levels of government to a community based body that may wish to initiate and carry out this project under the auspices of and/or with the cooperation of the National Congress of Italian Canadians as well as under the patronage of the Governor-General of Canada, the Lieutenant-Governor of Ontario, the Prime Minister of Canada and the Premier of Ontario and other prominent citizens, and that the statue be officially unveiled on June 24th, 1997, ten years hence, as part of the celebration of the 500th Anniversary of this historic event.
13. *Mr Wildman*—Resolution—That, in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.

15. *Mr Treleaven*—Motion under Standing Order No. 36 (a)—That this House discuss Sessional Paper No. 106, Tabled May 27, 1987, namely a Petition relating to live dancing entertainment in hotels and other licensed establishments.
18. *Mr McGuigan*—Resolution—That, in the opinion of this House, the Social Development Committee should be asked to review the current state of regulations relating to required and recommended vaccinations of children in the Province of Ontario. In particular, the Social Development Committee should be asked that the following regulations, in conjunction with vaccine-injuries in Ontario, be recommended:
  - an effective means of information about the benefits and risks of immunization and about known contra-indications;
  - an effective method of parental instruction about how to deal with reactions, should they occur;
  - an effective reporting system of adverse reactions in order to reduce the likelihood that children will receive contra-indicated inoculations; and
  - a general assurance that recipients of government sponsored immunizations, who experienced a serious adverse reaction, will be provided with compensation without the need to establish liability based on the elusive tort theory.
20. *Debated June 25, 1987.*
21. *Debated June 25, 1987.*
22. *Mr Treleaven*—Motion under Standing Order No. 36 (a)—That this House discuss Sessional Paper No. 138, Tabled June 16, 1987, namely a Petition calling for an immediate investigation into the unusually high incidence of Multiple Sclerosis in the North Central part of Woodstock, Ontario.
23. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment.
24. *Mr Charlton*—Resolution—That, in the opinion of this House, recognizing that since the introduction of appliance efficiency standards would encourage electricity conservation, appliance efficiency standards should be a part of an integral approach to electricity conservation opportunities, electricity supply and acid rain abatement; and that the implementation of such standards in Ontario would increase the efficiency of products made in or sold in Ontario, result in significant energy and net cost savings to Canadian consumers, reduce the needs for new electrical generating capacity in Ontario,

stimulate technology transfer to and investment in the Ontario manufacturing industry and increase competitiveness of the Canadian industry and maintain current employment; Therefore: Appliance efficiency standards should apply to,

- (a) household appliances such as refrigerators, dishwashers, freezers, clothes washers, clothes dryers, ranges; and
- (b) heating and cooling equipment including furnaces, room air conditioners, water heaters, central air conditioners and heat pumps;

Standards should be compatible with the National Appliance Energy Conservation Act, 1987 (U.S.);

Labelling should be specific and include a basic energy cost comparison on label, i.e. dollar cost of operation under typical conditions with a rating system to be used based on performance costs and administered by the Ministry of Consumer and Commercial Relations;

Implementation should take effect in 1988, 1990 or 1992 depending on the product and achieved through a consultative process with industry, consumer, government and other interests;

Standards should be reviewed at least every five years;

The Government of Ontario should exercise the powers given it under the Ministry of Energy Act to encourage prudence in the use of energy in Ontario by enacting an act to provide for appliance efficiency standards.

25. *Mr Charlton*—Resolution—That, in the opinion of this House, recognizing that current standards of residential construction result in energy demands above that technically feasible and economically justified;

That the beneficial impact of energy efficiency on the Ontario economy and environment cannot be overestimated;

That the consequences of inefficient housing standards are financial burdens for all energy users;

That consequences of inefficient housing standards are an ever-increasing threat to the environment;

That increased demand on utility supply imposed by new housing results in new power plants, transmission lines, and other capital-intensive projects;

That an aggressive strategy aimed at the universal production of energy-efficient housing will yield superior quality housing, greater affordability, the avoidance of capital intensive utility investments, increased employment, and reduced environmental impacts;

That minimum housing efficiency standards in Ontario should be brought in line with levels of efficiency that economics dictate;

Therefore, the Government of Ontario should,

- (a) immediately adopt, in the Ontario Building Code, the National Building Code Measures for Energy Conservation as a direct, low cost and fair means of achieving an improvement in the quality and affordability of Ontario housing;
  - (b) adopt, by the end of the year, new ventilation requirements using Canadian Standard Association standards;
  - (c) establish an Energy Conservation, Codes and Standards Committee to recommend energy performance targets;
  - (d) establish the form of Code amendments, support enforcement, technical transfer, monitoring and new standards;
  - (e) create a Home Labelling Program to enable consumers to readily distinguish products on the basis of energy performance;
  - (f) set mandatory energy-efficiency standards at least-cost levels for all government-assisted housing; and
  - (g) conduct the program under the administration of the Ministry of Energy with participation by other bodies.
26. *Mr Runciman*—Resolution—That, in the opinion of this House, the Government of Ontario should take immediate action to remove “Stomach Bitters” from variety and grocery stores and that such products be only available and sold through Liquor Control Board outlets.
